The trends spotlighted the APAC Awards revealed!

mtn-i editorial team present the fastest growing growth trends. Revealing which asset classes, products, manufacturers, strategies, issuers and distributors are driving investor demand.

14:20 – 15:20 KEY MARKET PANEL

Bulls Busted!

Regional leaders from HSBC, Standard Chartered, Credit Agricole and The World Bank consider the Asia's biggest challenges and opportunities for issuers and investors amid the current turmoil and the longer term trends we've identified.

Bulls Busted. What challenges face investors and issuers if decade long equity and bond market rallies end simultaneously, never mind the pain of rising rates, trade wars and even Brexit.

- **Formosa capped out?** As the new limits bite, how will the Formosa market evolve from here. Headline volumes may be culled but will new opportunities evolve?
- **China calling.** With new and significant Chinese issuers emerging, demand for the currency resurging and the domestic market opening further – what are the opportunities for issuers and investors.
- **Korea rising.** What's the next chapter for Korean investor demand after the KRW/Euro basis swap story?
- **SRI socialising.** Within the rapid growth of the SRI asset class – how significant is the rise of the Social bond?
